

FREE Nitrate Testing for Private Wells

**Do you get your drinking water from a private well?
If so, get your water tested for FREE, with quick results!**

Nitrate is the most common contaminant in Minnesota's groundwater

****Tuesday, August 16th***

2:00 PM to 7:00 PM

Greenwald Pub

310 1st Ave N, Greenwald, MN

How to participate:

- Collect water sample from cold side of kitchen faucet on August 16th.
- Keep sample cool and bring to Greenwald Pub between 2pm & 7pm.
- Wait for results. (Hopefully 10 minutes or less depending on crowd)

Optional:

- Discuss your results with a water expert.
- Cant make event? Drop off water sample after 7am. Cooler outside Pub.
- Coupon available for additional water testing. \$90.00 value for \$70.00.
- Attend presentations on water topics at the top of the hour from 3 to 6.
